

Kindergarten is an important milestone in a child's educational journey. It is essential to provide them with the right learning tools tailored to their psychological development. At Doamago, we take a focused approach to building a strong foundation in mathematics. In this course, students will learn essential skills such as addition and subtraction, along with a variety of multi-tasking mathematics activities presented through engaging and diverse templates.

Benefits:

- 1. Builds Strong Math Foundations** - Introduces basic concepts like addition, subtraction, and multi-step problem-solving.
- 2. Enhances Critical Thinking** - Develops logical reasoning through interactive exercises.
- 3. Strengthens Writing Abilities** - Improves number formation and handwriting skills.
- 4. Boosts Confidence** - Helps children feel confident in their ability to understand and solve math problems.
- 5. Prepares for Advanced Learning** - Helps students get ahead in school by building a strong foundation in math concepts.

Course Name : Kindergarten

Student Age : 4 to 5 years

Total number of Maths: 17,000 units

Catagory : Addition, Subtraction
Multi-Task & many more.

Instruction

Students can complete one lesson per day, with a total of six lessons over six days. After completing the chapter, the next chapter will be unlocked after 7 days. Please ensure children do not attempt more than 1 lesson per day to maintain a healthy and effective learning pace.

Our team comprises 17 dedicated educators with over 20 years of combined teaching experience, committed to helping children reach their full potential. Our curriculum is built on research-driven principles of child psychology, offering the most advanced framework for establishing a strong educational foundation. We are proud to guide children toward the right learning platform, ensuring a promising and successful future for every student.
